OVERVIEW

ATMIT Human Capital Management System (HCMS) provides the framework to help executives, human resources (HR) professionals and employees to manage the most important asset in the organization "People". ATMIT HCMS supports all organizations needs to provide highly efficient, accurate service and maintain impeccable employee files for complex global workforces.

HUMAN RESOURCES

ATMIT HR module has a set of rich features, which helps you track every aspect of your organization, and offers you wide solutions for the HR department.

All-inclusive employee data, equipped with seamless capability to generate essential employee records that meet your company's unique requirements.

Tracks important functional changes for each of the employees.

Streamlines the management of employment applications and contracts.

Reminds your HR team on tasks: Never miss a deadline again with our tool that sends timely reminders to your HR team for all pending tasks.

Empowers your HR team with a visually stunning and feature-rich dashboard that delivers unparalleled insights for confident and informed decision-making.

ATTENDANCE MONITOR

ATMIT Attendance Monitor (ATM) module is the key for a proficient and successful time tracking and management in your organization.

ATMIT ATM module takes the hassle out of managing employee schedules by organizing their working hours, tracking absences, and ensuring compliance with official holidays.

ATMIT ATM module not only monitors employee shifts with precision but also provides invaluable insights to calculate accurate salaries based on employees' attendance.

Seamlessly connects our module to any attendance device.

Unmatched flexibility with our dynamic configuration features, which allows customization to meet any and all of your company's internal rules and regulations.

Empower your HR team with ATMIT ATM module featuring a customizable approval and notification workflow for any leave requests and HR procedures.

PAYROLL

ATMIT Payroll module is an essential tool for managing employee's salaries, benefits, and taxes.

Effortless generation of any complex payroll with ease and precision in order to comply with the country's labor laws and regulations.

Ensure timely and accurate payroll processing with our innovative workflow that streamlines approval and notification processes.

Take control of your loan processes with our comprehensive management tool that covers every aspect from start to finish.
